Seating Products

The Modern Classroom

Rover is the tool that will cross boundaries of “immobile” classrooms, enabling educators to provide a modern and effective arena for learning. Rover is designed to be mobile and adaptable in limited spaces and dense classrooms. A room can be transformed from theatre setting to a U-shaped setting effortlessly by moving the chairs around. This allows for maximum utilisation of space as well as increasing interaction between student and teacher.

Model: 92_BC AW1 AP

Features

Back shell design breathes like mesh.

The base tray provides approximate 35 liters space for personal belongings.

Plastic seat shell comes in 3 colour options and require less maintenance.

Foldable A4 size writing tablet with Anti-Panic mechanism is tested to 50kg loads.

Model: 92_BD AW1 AR

Features

Back shell design breathes like mesh.

The base tray provides approximate 30 liters space for personal belongings. Pockets on both side for drinks bottles etc.

Plastic seat shell comes in 3 colour options and require less maintenance.
