

MERRYFAIR®

ANGGUN

Seating Products

Seating Excellence at Work

Anggun, has an equivalent meaning to 'sleek' in Malay. Functionally, design and quality are the 3 main objectives we seek to achieve when designing and engineering the Anggun chair. With functionality being the main theme. Merryfair presents to you a clean looking chair that will adapt to any workspace environment.

Visual Lightness

Anggun exudes a light and calming appearance thanks to our thinnest ever back frame, with just a 3mm edge.

A new and more transparent *Stripes* mesh further enhances its visual lightness.

Easy Add-On Extras

Both the lumbar pad and headrest need not be pre-installed at factory.

They can be ordered separately and retrofitted to the chair using common tools, thus streamlining stock levels of different models.

Safety & Ergonomics

Anggun is designed and certified to BIFMA X5. 1 and EN-1335 standards for safety and durability, giving you a peace of mind.

Being sleek in design does not compromise on the ultimate need of complying to ergonomic standards for workspace, comfort and general well-being. Anggun represents the hallmark of Merryfair's aim to be your partner in seating.

Headrest

A sleek looking headrest can be easily retrofitted using common tool.

Adjustable for 45mm height range.
Fiber-reinforced polyamide material (100% recyclable) in charcoal colour.

Lumbar Support Pad

Supportive lumbar pad can be easily retrofitted as optional without using common tools.

Adjustable for 80mm height range.
Polypropylene material (100% recyclable) in charcoal colour.

Chair Mechanism

Standard **YM** synchronized mechanism features 3-position tilt lock, pneumatic seat height and auto weight-sensing tilt tension.

Optional **YP** synchronized mechanism features 4-position tilt lock, pneumatic seat height, tilt tension control by side knob and 2 seat angle positions.

Seat is adjustable for 100mm height range. Diecast aluminium alloy and steel material (100% recyclable) in black colour.

Backrest

A breathable polyester mesh suspension allows improved ventilation, to provide exceptional thermal comfort. Fiber-reinforced polyamide material (100% recyclable) in charcoal colour.

Armrest

3-way adjustable **A78** armrest can adjust for 100mm height range. Fiber-reinforced polyamide material (100% recyclable) in black colour.

Armpads can move forward or back and swivels into 3 angular positions to allow the user to rest their arms easily. Polypropylene material (100% recyclable) in black colour.

Base

Standard **V** base is moulded of Fiber-reinforced polyamide material (100% recyclable) in black colour.

Optional **VP** base of diecast aluminium alloy material (100% recyclable) in polished finish.

50mm dual-wheels castor moulded of black polyamide (Nylon) for use on carpeted floors.

Mesh vs Padded Option

Anggun is also available with padded backrest in fabric upholstery, for those who prefer warm plushness over airy transparency.

2 Mechanism Options

YM mechanism features Auto Weight-sensing Tilt Tension that automatically adjusts backrest pressure according to user's weight.

YP mechanism offers 2 Seat Angle Positions to provide an additional forward seat tilt for intensive upright sitting tasks.
