

MERRYFAIR®

REGENT

Seating Products

Seating Excellence at Work

Regent redefines the chairman's chair by marrying exceptional craftsmanship and state-of-the-art technology.

Appearance

Careful combination of wood, aluminium and leather finishes are used to create an understated and sensible indulgence.

Comfort

Deep plush cushions offer gratifying comfort, giving you the best frame of mind.

Flexibility

A weight-sensing mechanism auto-adjusts a recline force that is proportional to the users' weight. Remote controls enable chair adjustments without lifting your hand from the armrests.

Fine details like pleats, contrast stitching and piping complete Regent's classy outfit.

Headrest

Headrest is height adjustable by a ratcheting mechanism, for range of 80mm. Headrest bracket is welded mild-steel in a epoxy powder-coated finish. Headrest height mechanism made of aluminium extrusion, polyamide fixture and steel hardware.

Armrest

Frame is made of diecast aluminium alloy (100% recyclable) in a chromed finish. Arm cap of solid wood in a tinted-clearcoat finish. Armrests feature control levers moulded of polyamide (nylon), located conveniently right next to user's hands to remotely-control seat height and recline lock.

Base

A 70cm diameter five-point star base of diecast aluminium alloy (100% recyclable) in a chromed finish is standard, equipped with 60mm diameter twin-wheel castors in polyamide(nylon).

Backrest

Upholstered in leather or synthetic covering. Backrest is attached by a welded mild-steel bracket in epoxy powder-coated finish.

Mechanism

Synchronized mechanism with 25 degree back-tilt range, features pneumatic seat height control, multi-position recline lock and automatic weight-sensing recline-force. Seat height and recline lock are remote-controlled via bowden-cables. The mechanism consists of a diecast aluminium structure, steel brackets and steel hardware, finished in black epoxy coating. Seat height adjusts by gas spring of 80mm stroke.
