SAVILLE

Seating Products

Seating Excellence at Work

Saville is everything to everybody, representing sophistication in design, simple operation and feeling good at the office.

Design

Like a good well-tailored suit, Saville combines exceptional workmanship and attention to detail with a lightness of design.

Appearance

Saville's distinct expression in shape is conveyed by the light transparent netting of the backrest, shaped like a tight sail.

Comfort

Saville has a structure that provides effective lumbar support as well as conveying a feeling of lightness and harmony.

All the aluminium parts are finish in chrome-plating for an attractive appearance and easy cleaning.

Upholstery

is offered in 4 choices.

High-tensile polyester mesh, thin leather padding soft leather cushions or combination of leather seat cushion and mesh backrest.

This is stretched over a diecast aluminium frame to create a strong yet elastic suspension for optimum body support.

Mechanism

Saville features an advanced mechanism with multi-position recline locking. Recline tension is adjusted using a side crank for convenient operation.

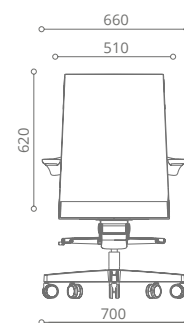

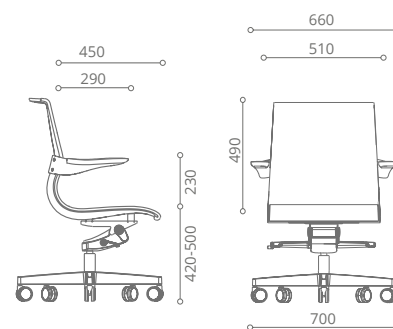

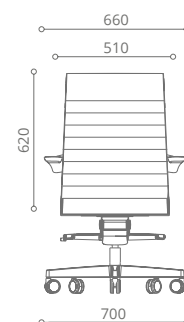

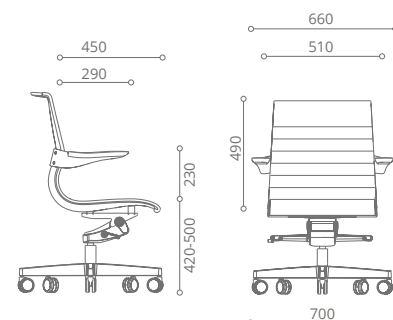

Armrests

The armrests are also made of diecast aluminium and covered by an armpad of PU integral foam for a soft-touch tactile quality and durability.

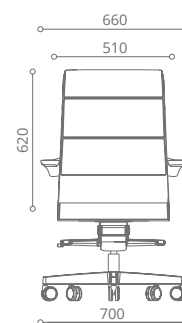

Base

A 5-prong base of diecast aluminium is equipped with 60mm diameter castors for low rolling effort.
